JESUITISM!
THE CATHOLIC LETTERS,
Addressed to a Young Kinsman, about to Join the Church of Rome
BY B BARRETT DERBY, ESQ.
In one volume, 12mo Price 75 cents
These Letters covering the whole Catholic question, are, without doubt, the most able and learned resume of this subject ever given to the world
The arguments and the conclusions are masterly and irresistable, and strange as it may seem for an eminent lawyer to leave Blackstone and Coke and, for a time, bend the whole energies of his mind, with that keen sagacity peculiar to the legal profession, to an exhausting research among the tomes of the Fathers of Theology still the service which he has rendered to the cause of truth and the fact that his labors resulted in changing for life the course of a beloved kinsman, who would otherwise have joined the Church of Rome, will ever be a cause for gratitude
One of the merits of the work is a spirited review of Dunseen Howson Conybeare Milner, and other modern writers and a well digested argument on the planting of the Church in Britain by St. Paul before the Roman Pontificate was founded
Rev Dr Peabody, in a note to Mr Derby, after a careful reading of proof-sheets, used the following language "Your main argument is serious to me in its point, and overwhelmingly conclusive I hope, and do not doubt that it will do much good, while it is honorable to yourself, both as a patriot and scholar"
We believe this work is destined to become

National Republican Nominations.

FOR PRESIDENT

JOHN C. FREMONT,

FOR VICE PRESIDENT.

WILLIAM L. DAYTON,

OF NEW JERSEY.

The Press upon the Nominations.

From the thousand responses to the nomination of Fremont we select portions of a few from different sections, which give a fair representation of the feeling which is fast uniting into one irresistable phalanx the entire opposition to the Cincinnati platform and nominee. To present a few of these opinions of the press we occupy some space this morning to the exclusion of other matter We take our extracts mostly from papers not heretofore connected with the Republican party

From the Portland Advertiser

We congratulate the friends of freedom upon the wisdom which led to this nomination It touches the hearts of the people, and evokes an enthusiasm which no other selection, in our opinion, could have awakened It commends itself at once to the convictions, the judgement and the hopes of the masses—and it must lead on to victory Let us enter heartily upon the contest, gladdened by the thick omens around, and lay hold upon the triumph which is within our power UNION FOR THE SAKE OF THE UNION!

From the Portland State of Maine (Whig)

FREMONT NOMINATED The nomination of John C Fremont by the Philadelphia Convention was not unanticipated by us, and seems to have been received with unbounded enthusiasm everywhere by the friends of that Convention Mr Fremont is a young man—born in 1813 He has had almost adventurous and eventful history, and his nomination for the Presidency can hardly make his name more widely known, than it now is. He has never been a politician, but has always been understood to be a friend of freedom, as his past life abundantly proves

We have not yet received the platform of the Convention by which he was nominated, and therefore reserve any lengthy comments It seems, however, to have been actuated chiefly by a zealous desire to bring about a union of all opponents of the extension of slavery

From the Boston Atlas

It gives us the utmost pleasure to announce that Col JOHN C FREMONT was yesterday, with singular unanimity, nominated by the National Republican Convention for the Presidency In thus selecting Col Fremont, the Convention have recognized the wishes of the people, and have but given voice to the sentiment which has been long entertained in favor of "the young and gallant hero who first planted the American flag upon the Pacific coast, and opened to this Republic a new continent. The nomination will everywhere be hailed with enthusiasm He will be borne triumphantly to the White House—he will be the next President of the United States

And now, with "LIBERTY AND UNION upon our banners, fellow citizens, let us go to work and elect these candidates. Never was there a nobler opportunity of vindicating the highest principles, and of restoring the ancient policy of the fathers! Let it be improved! Let us present to the world in November next the spectacle of a nation REDEEMED, REGENERATED, DISENTARALLED

From the Boston Journal (Whig)

Mr Fremont is by no means an unknown man His name and fame have penetrated in to every house and cabin in the United States where a newspaper has found admission Born and educated in South Carolina, he is remarkable for a nationality of feeling and for a love of free institutions which have not often been betrayed by the public men of that State, and which have conducted to his selection as a suitable candidate to represent the Republican party in the approaching struggle His firmness, decision energy and integrity as a man have never been called in question, and it may be said that all that is now known of Mr. Fremont *personally* is favorable.

From the Boston Chronicle.

John C Fremont is not the candidate of any party, clique, ism or even State, but of all men who go for the *liberty of labor*, yes of the masses of that very State of his birth whom the shadow of slavery forbids to vote for him The votes of the free North will elect him, but the hearts of a majority of the other fifteen States will bring on his administration the blessings of those ready to perish, and in four at least of those States thousands of brave votes will be thrown for him.

From the New York Herald

The public opinion of the opposition masses has boldly and impressively indicated Fremont as the man for the crisis—new, fresh, popular, and with a history that will stir up the enthusiasm of men, women and children, from Maine to Margoneal

It must be conceded that, to an extraordinary extent, the saving qualities of concession, conciliation and compromise among the mixed and multitudinous commission at Philadelphia were indispensable to a harmonious nomination; but *never before, in any party Presidential Convention within our recollection, has this great idea of everything for the cause and nothing for men, been so strikingly illustrated.* There is something in this omission of a resolute and desperate fight with the Pierce and Buchanan democracy, and no mistake.

A remarkable plank in the Fremont platform is the emphatic declaration that Congress has the constitutional power to expel polygamy as well as slavery from the Territories. This simply means that if this party is placed in power they will ma Mr Fillmore's ernor of Utah, nations, and w rascrha and sai half-dozen wive

short work of Brigham Young overnor and Mr. Pierce's Gov ith his ninety-six wives of all the whole breed of his pat s, with their twenty, ten, or spece. This is a good hit

From the N Y Cou se and Enquirer, a conservative and commercial paper

It will be seen that John C. Fremont was last night unanimously nominated as the candidate for the office of President of the United States The nomination was received with the greatest enthusiasm by the Convention

We heartily join in the response, and in the same spirit which moved the Convention to so gratifying an unanimity, we accept the nomination as the one under which the great battle, for the common good, can best be fought, with the surest prospect of success, and the one, the end of which, if well fought, will be victory

Looking confidently for a like response from awakened hosts of freemen, we enter the field under the Fremont banner, to contend against a foe whose rallying cry of battle is, not freedom, but slavery aggression

The Boston Courier, an intense hunker paper says

William L Dayton of New Jersey has been placed upon the Republican ticket as the candidate of its party for Vice-President. Mr. Dayton is a good Whig, who has performed service to his party when service was required, as a United States Senator, but we do not understand that his nomination was any concession to the Whig party It was considered necessary to do something towards obtaining the rather adverse vote of New Jersey, and Mr Dayton was selected for the purpose of bringing that State into the Republican "ring"

The New Bedford *Mercury* (heretofore straight Whig) puts the ticket at the head of its columns, and says

"The question of free territory is, as being the nearest of the first importance, but it is impossible to shut our eyes to the fact, that democratic rule is every day hazarding the peaceful relations of this country with foreign powers. A change of the administration is called for by every consideration of patriotism, freedom, peace and commercial security. And every man in the community should bring this home to himself, for every man is interested in it Of the Presidential candidates now before the people, it is in our opinion evident that the nominee of the anti-Nebraska convention is the only one who presents a hope as a formidable competitor to the democracy That John C Fremont appears, if elected, to be the person most likely to sustain these views we believe, and therefore shall as a duty and a pleasure sustain him as the Union candidate"

The New York *Mirror*, an independent paper with American tendencies and no sympathy with party Free Soilism, says

"We cannot refrain from congratulating the Republicans on the harmony of their proceedings, and their spontaneous selection of a man who is connected with no faction, whose name is familiar as a "household word," throughout the wide extent of our Republic, and whose whole life has been devoted to the interests of civilization and the glory of the American Union

The same paper speaks of the platform of the Philadelphia Convention as follows —

"The above resolutions constitute the platform of the new composite Republican party, and contain the issues upon which the combined Anti Slavery men of the North propose to contest the Presidential election with the nominee of the Cincinnati Convention. This declaration of war is explicit and easily understood That it will be readily adopted and zealously defended by a majority of Free States, it would be folly to deny The framers of this Anti Southern platform have embodied in its structure several popular elements, but the strongest plank of all is that which has been gathered from "bleeding Kansas"—the plank which the Pierce administration are compelled "to walk It is a plank stained with innocent blood, which will plead, like Cæsar's wounds, against the assassins who have shed it."

The Concord (N H) *Statesman*, for many years the leading organ of the Whig party in New Hampshire runs up the flag of Fremont and Dayton, and endorses Col. Fremont with earnestness It says that the news of the nomination was received in Concord even more enthusiastically than was that of Gen Taylor in 1848.

The New York *Evening Post*, the most able and influential Democratic paper in New York, which supported Pierce in the last election, now warmly advocates the Philadelphia ticket

The *Salem Gazette*, an old and influential Whig paper warmly endorses the nominations as the unmistakable voice of the people

The Boston Daily Advertiser, that old conservative Whig paper, gave the following advice to the Republican Convention, before the nomination If it does not point directly at John C Fremont, we cannot read

There is an element of weakness in each of the other two nominations, for each of them is the nomination of a man known for years as a lawyer and politician Now there is a growing expression in this country, that to secure high executive ability, we often need to turn from men trained to discussion, and seek men trained in walks of life wider than the Senate chamber or the Court house. A man of science and letters, named Franklin, made the best diplomatist this country ever had A civil engineer and soldier, named Washington, was the President of her Presidents. Now the Republican party can justly gain immense accessions to its vote if it will resist the temptations to name a brilliant intriguer, or a brilliant talker, and select an executive man, known to the community by other warrants than mere legislative reputation A man of letters, or a man of business, or a man of science, would, other things being equal, secure vastly more strength, because he would deserve vastly more, than a mere man of party.

The responses from the Republican papers everywhere are hearty, enthusiastic and entirely confident of victory.

Mr Noah Barker, of Oldtown, who has been spending the last eight months in Kansas, arrived in this city on Saturday last, having left Kansas the week previous He represents the abuses and enormities committed upon the Free Statesmen in Kansas as a disgrace to the age, and surpassing the general belief He was himself taken a prisoner by the border ruffians, but was permitted to leave the Territory with his life We learn that he gave a highly interesting account of the state of affairs in Kansas, on board the steamer Sanford, on Friday evening, and we hope that in a short time the citizens of Bangor may have an opportunity to listen to his narrative He is a democrat, and voted for Pierce, but he now repudiates the administration, and its administrator Buchanan, and goes joyously for Fremont.

An Irishman (name not reported) was considerably injured on Saturday, at North Belgrade, by being jammed between two cars, while shackling them together.

Free Speech in Congress.

It is stated in a letter, published in the Courier and Enquirer, and represented by that journal as written by a Member of Congress, that Southern Members have entered into a combination to intimidate Northern Members from speaking freely their sentiments in the approaching discussion on the resolution before the House, for the expulsion of Preston S Brooks, of South Carolina, who committed the dastardly assault upon Senator Sumner The writer says that a few days since, Mr Brenton, of Iowa, a lame gentleman, who uses crutches, referring to a Southern Member, a friend, what he intended to say on the resolution of expulsion The Southerner listened until the close, and then told him he must not under any circumstances make that speech—that he would not be permitted to make it, as the Southern members of the House had "gravely determined" to allow the use of such language

It this conversation really occurred, if it was anything more than a pleasantry intended to impose on the credulity of a man from Indiana, who, it seems, has his speech "cut and dried, and privately rehearsed it to his friends, if, in short, it was a friendly hint given by one who knew that Southern members have contrived to strike down the freedom of speech in the House, as it has already been assailed in the Senate, then, indeed, have things come to a pretty pass in this Republican country, when the very first right of a freeman cannot be exercised with safety in the halls of National Legislation It certainly behooves the men of the North, and the friends of free speech and free discussion in all parts of the Union, to speak out in stern and resolute denunciation of this revolutionary conspiracy, and to call on their representatives to to stand up fearlessly in defence of their rights

N Y Sun.

We trust there is no truth in the statement made by the correspondent of the Courier and Enquirer. We do not believe that there is.—Southern men cannot have become so utterly demented as to form a deliberate purpose like the one indicated If it be true, also for the consequences! Northern men *cannot*, OUGHT NOT, WILL NOT submit to be gagged, in Congress or out of Congress If another outrage like that upon Senator Sumner is attempted, blood will inevitably flow at Washington, and the end no man can predict. We trust in God that wiser counsels will prevail—that Southern men will concede to the great and vital principle of freedom of speech, without which there can be no Republican government, and that they will unite with northern men in testifying their condemnation of the outrage upon Mr Sumner, and, by punishing the aggressor, clear their own skirts of the crime

"The people of New England, and particularly of Maine, have a just abhorrence of ranting political clergymen, with whom they will reckon at a proper time and in a proper way — *The Struggle* between these allies of black republicanism and the fearless and intelligent people of Maine *will be sharp but brief, as many an empty pulpit will testify* —*Bangor Journal.*

"Let this dastardly threat be understood — If a Christian clergyman is moved to apply the pure principles of the Gospel to existing abuses and evils, in the manner his sense of duty requires, he must be called a black republican—and the penalty must be "*an empty pulpit*" Is not this an exhibition of the gutta percha spirit, as far as it can be manifested in New England? Shame on the man who can so far forget all that belongs to honorable political warfare, as to employ a weapon like this It will not succeed The pulpits of Maine will not be emptied in this way If they are to be retained at the expense of silence at such times as these, they had better be empty than occupied But they will not be The free people of Maine would despise an Ambassador of Christ who should hold his peace at such a perilous time for liberty as this, almost as much as they must those who resort to such a wretched expedient as that quoted above People need not believe all that a clergyman utters, but they owe it to him, to themselves, and to their Maker to hear him, to ponder well what he says, and to honor him for candidly expressing his convictions, even when they cannot receive them.—He who does otherwise adopts a most reprehensible course, and in preaches his own position more fatally than any opponent can It is a weak cause that must forcibly muzzle those who oppose it"—*Augusta Banner.*

The Banner justly calls the above threat a manifestation of the gutta percha spirit. The same spirit is manifested daily by the party to which the Journal belongs A prominent instance is fresh in the minds of our people, who will not soon forget that the *Chairman of the Buchanan ratification meeting* in this city, denounced our clergymen as "infamous scoundrels in the pulpit," and threatened the application of "hemp" to men whom he chose to denominate traitors to the Union for opposing the encroachments of slavery

Mr Clayton of Delaware submitted a proposition in the Senate on Monday for the adjustment of the difficulties in Kansas He denounced the laws passed by the Border Ruffian Legislature as unjust, disgraceful and cruel, and proposed that a new organization of the territory should take place, for which he introduced a bill

On the reception of Fremont a nomination in Boston, cannon were fired and there was a general rush for a spontaneous meeting at the Republican head quarters And the greatest enthusiasm, it was moved and carried that the club should be changed to "Fremont Club, No 1" Glowing speeches were made on the occasion The Chronicle says

"Among these speakers were members of all the political parties into which the North has been split, or rather those who till now have been such, and men born on both sides of the Atlantic. All agreed that the platform had fallen down at Philadelphia was the place for them till its great paramount object was accomplished"

The seventeenth of June was celebrated with great ceremony in Waldoboro, on the occasion of the interment of the body of Conrad Heyer, the first-born citizen of that town, who died in February last, aged 107 years The Conrad Guards accompanied by the Bath Band, and the Rockland Guards accompanied by the Rockland Band, did escort duty. An eulogy was pronounced by Rev Mr. Dodge Over 4000 people were in the procession

MAINE STATE FAIR We learn by the Maine Farmer that the committee appointed to locate the show and fair of the State Agricultural Society, held a session last week, and having examined various proposals decided in favor of Waterville. The fair is to be held October 28, 29, 30, and 31.

Mr. Paul Welch, of Skowhegan, and his son, aged about 15 years, were among the killed by the recent steamboat explosion at Longueil, Canada.

THE BUCHANANITES ALREADY QUARRELING The "democracy" of New York city has already got to quarreling in the formation of their Clubs The trouble is between the "Custom House influence," and its opponents A meeting in Ward 7, held on Tuesday evening, to organize a Buchanan Club broke up in a row from this cause

HARPER'S MONTHLY for July is received through Messrs A Williams & Co of Boston, successors of Petridge & Co., who have removed to New York This number contains the usual variety of interesting matter Among the articles is one, beautifully illustrated, upon Africa and its negro population Another giving an account of the Great Epidemics which have ravaged Europe—"the Plague in London and Marseilles," Three chapters of "Little Dorrit," &c Barlow's celebrated poem of "The Hasty Pudding," is beautifully illustrated It is a tribute to the virtues of Indian Corn, and an argument for Simplicity of Diet

The Republican Nominee for Vice President.

TRENTON, N. J, June 19—Immediately after the adjournment of the Republican Convention, the New Jersey delegation started for this place, and on arriving, formed an imposing procession, headed by a band of music, and waited on Mr Dayton, the nominee of the convention for Vice President.

Mr Whelpley, in an appropriate speech, notified him of the action of the convention, and that gentleman acknowledged the honor done him, and endorsed the platform laid down

His remarks were very patriotic and elicited much enthusiasm from the assembled crowd.

William L. Dayton.

Was a member of the United States Senate, from 1842 to 1851 He is of Whig politics, a clear headed and remarkably conscientious lawyer, and in his office as Senator commanded the profound respect of all parties He opposed the annexation of Texas as an expansion of the area of slavery, and the compromise measures of 1850 for the same reason, and because he considered the main provisions of the Fugitive Slave Law unconstitutional. He spurned the argument by which that unrighteous act was forced on the deluded North, that it was necessary *to save the Union* His position so far as we are aware, has always been perpendicular and firm against making any new concessions to the slave-power, but in favor of fulfilling all settled compacts to the letter. As a conservative in opinion he may be said to have stood by the side of Daniel Webster, but he differed from him in passing through the great struggle in which they stood side by side, without yielding his opinions On the contrary, no Senator demonstrated more to the distress of Butler, Mason, and even his old leader Clay, the injustice, unconstitutionality and folly of the negro hunting law which now disgraces us than Mr Dayton of New Jersey —*Boston Chronicle*

At a Republican Convention, held in Syracuse on the 28th ult., at the motion of Mr Dayton, of New York, it was Resolved, That the rejection of a resolution by the House of Representatives, inquiring whether Philip A Herbert was justified in discharging a revolver with fatal aim at Thomas Keating, a defenceless domestic evinced a laxity of sentiment and immunity for crime calculated to excite apprehensions that law and justice are not administered with an even hand, which is our only guarantee of personal security and public order—*Anar Celt*

FOR FREMONT AND DAYTON *Brunswick, June 20* Sixty guns were fired this evening by the citizens of Brunswick, in honor of the nominations of Fremont and Dayton Great enthusiasm prevails

GEN GADSDEN AND MEXICAN AFFAIRS—PADRE VIJIL—NICARAGUA—*New York, June 20* [From The Herald's Washington correspondence] Gen Gadsden has had no interview with President Pierce or Mr Marcy He called twice on the President, but each time failed to obtain an audience He knows not why he has been ordered to Washington by Mr Pierce, nor has he negotiated any treaty—Gen G says Spain contemplates nothing like an attack on Mexico but her fleet at Vera Cruz is designed to be joined against the present liberal party in the event of another revolution Mexico does not regard the position of Spain as menacing

Padre Vijil left here to day for New York, and will sail thence to Nicaragua on the 24th inst, in the steamer Orizaba One reason of his leaving is the delicate state of his health,—the other is that he wishes to confer with his government in reference to matters in Nicaragua He will appoint some person here to attend to affairs during his absence He deems it advisable, owing to the critical condition of our affairs with England, that there should be some one to represent him

STRANG, THE MORMON, SHOT—*Detroit, June 19*—James G Strang, the Mormon leader at Beaver Island, was shot on the 16th, by two of his former followers At the latest accounts he was still alive, but in a critical condition — His assassins are under arrest

FIGHT IN WALL STREET—MAYOR WOOD & BROTHER WHIPPED On Wednesday afternoon, a brother of Mayor Wood assaulted a gentleman named Bradford, supposed to be the author of the article against the gamblers that recently appeared in the Tribune Wood struck Mr Bradford over the head with a heavily loaded cane, but as soon as the latter recovered himself he turned the tables and punished his assailant severely A third party who accompanied Mr. Wood with a revolver in his pocket to see fair play, attempting to interfere, was also well beaten by Mr. Bradford—*New York Express.*

THE GRAND TRUNK RAILWAY was opened as far westward as Guelph, on Monday last, a distance of 87 miles from Toronto, and extending toward Port Sarnia, the terminus of the road.—A day or two since, a party of gentlemen went over the same railway as far as Berlin, to which point the road will be completed probably in less than a month From Berlin to Stratford the works are progressing rapidly.—*State of Maine*

SUICIDE We understand that a man by the name of Andrew Joy, residing in Clinton, committed suicide on Sunday last by hanging himself.—*Skowhegan Clarion.*

At a recent sale of modern English pictures, in London, Turner's "Temple of Jupiter, Island of Ægina—Athens in the Distance," was bought by Mr. Gambert for £1,365

CONSIDER THE NAME A DISGRACE.—We are informed that a person by the name of Brooks, who has recently been discharged from the State Prison at Charlestown declares it his intention at once to petition the Probate Court for a change of name, as the one he is known by has been shamefully disgraced by Preston Sycamore Brooks, of South Carolina.—*Bos.*

FOUND The body of Maj. E. Hawkes, who was drowned at the foot of the Lake, about a fortnight since, was found on Friday last about two miles from where he was drowned.—*Sheboygan Clarion*

GREAT CONSUMPTION OF STRAWBERRIES—During the session of the Convention at Cincinnati, there were consumed every day at the Burnet House thirty bushels of strawberries, the cost of which was over $200, and the picking of which employed thirty women per day

Jim Myers to the Public.

A report having been put in circulation, thro' the medium of malicious and interested parties, that Mlle Louise, the young lady who daily makes the grand ascension upon a single wire in front of Jim Myers' Great Show, had fallen and injured herself, the proprietor in publicly proclaiming the heartless falsehood of the whole story, and his contempt for its vile authors, feels impelled by a sense of duty to expose the base motives which instigated the slanderous rumor The mean falsehood had its origin in one of the hangers on of a rival establishment, who, envious of the well earned popularity and unprecedented patronage lavished upon Jim Myers establishment, sought to injure it by spreading the report that one of its conspicuous attractions had been destroyed. It affords Jim Myers great pleasure in announcing the perfect health of Mlle Louise, and that altho she has performed her astounding feat daily since the commencement of the season besides having on previous occasions repeatedly walked across some of the principal streets in Paris at an elevation of 100 feet from the ground, she has never yet fallen off her wire, or sustained the slightest injury from accident of any kind

And furthermore, Jim Myers has the only show where Cinderella is performed—the only place where a man walks the ceiling feet up and head down—the only exhibition where outsiders can witness a lady make an ascension on a wire 60 feet from the ground—and, in fact, the only "Great Show" in the country! and the only one that performs all it promises in its bills.

Persons living at a distance from town are respectfully notified, that Mlle Louise will make her grand ascension in Rockland on Friday June 27th, at precisely half past 1 P. M., outside the Pavilion of Jim Myers great show, walking upon her single wire a distance of 200 feet, and to an elevation from the ground of sixty feet, provided the weather is not stormy 14th

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, 21st.

HOUSE.—In the House to-day Mr. Colfax spoke on the subject of the laws emanating from the Legislature of Kansas, branding them as outrageously oppressive and disgraceful, and some of them as in direct contravention of the organic law and constitution of the United States.

Mr Burlingame defended Massachusetts against the general and specific charges. He was sorry to find at the head of her list of assailants the President of the United States, who had deliberately perverted history to eulogize the South at the expense of the North. Massachusetts believed with South Carolina, that the Fugitive Slave Law was unconstitutional.

Mr Keitt asked Mr Burlingame for his authority relative to South Carolina

Mr Burlingame to prove his statement, cited the remarks of the *Charleston Mercury*, which spoke of the Fugitive Slave Law as an infringement of one of the most cherished principles of the Constitution. In conclusion, he referred to Mr Sumner's speech, the purity and holiness of its sentiments, and the severity of its strictures against tyranny. Mr Sumner, he said, never had a personal enemy, his character was pure as the snow which falls on his native hills and his heart overflowing with kindness for every human being, and he bears the upright form of man. A member of the House, who had taken an oath to support the Constitution, stole into the Senate and smote him as Cain smote his brother

Mr Keitt—It is false (sensation)

Mr Burlingame replied, he would not bandy epithets but was responsible for his own language only, and doubtless the gentleman was responsible for his.

Mr Keitt—I am.

Mr Burlingame, after describing and severely condemning the assault, asked,—"Call you that chivalry In what code of honor did you get authority for it? If we are to be called to account by some gallant nephew of some gallant uncle for saying something which does not suit the sensitive nerves, we want to know it. If the conflict is to be transferred from this peaceful and intellectual field, where the honors are equal and easy, we desire to know it. The time may come when Massachusetts may withdraw her representatives to her own bosom, when safety cannot be found for them under the flag of our country, but while her representatives are here, they will speak how and when they will, not caring for the consequences, and if they are pressed too long and too far, they will not shrink from defending the honor of the commonwealth of Massachusetts and the freedom of speech."

Mr Keitt now sought the floor, but it was awarded to Mr. Carlisle, who refused and yielded it

Mr Keitt gave notice that he should on Monday reply to some of the points of Mr Burlingame's speech

Mr Carlisle condemned the resolutions of the Cincinnati Convention, as, he said, the Fillibustering platform of the Democrats. Fremont would not receive the electoral vote of any State except that represented by him (Giddings) The contest is between Mr Fillmore (!) the candidate of the national party, and Mr Buchanan who is supported by faction

Mr Washburn of Maine, urged the necessity of union of the opponents of the administration and those adverse to the extension of slavery in the territory He then examined the platform of the Cincinnati Convention in connection with the principles and the antecedents of Mr. Buchanan, and he said it was an impossible relief to emerge from the dark and foul atmosphere, reeking with shame and wrong into the clear light and healthful breezes of truth and liberty He spoke of Mr Fremont as the standard bearer of Freedom in this contest—as a strong and true man, whose aim it would be to maintain the principles of the Constitution, and bring back the government to the policy of Washington and Jefferson Mr Washburn triumphed in the faith, nay, in the undoubting conviction that the proceedings of the Republican Convention will be sustained by a large majority of the American people.

SPECIFIC
Homœopathic Medicines,
.....FOR.....
Families, Travelers, and others.
THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life The list includes not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Fever, Worm Complaints, Diarrhœa, &c, but also for those more sudden and violent diseases which require to be met on the spur of the moment, such as Cramp, Cholera, Dysentery, Inflammation &c, for whose treatment it is very important always to have the proper remedies on hand There are also remedies for those more delicate Female derangements which a lady finds it so difficult to disclose, but yet a freedom from which contributes so much to the happiness and enjoyment of life

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 30 or 40 Pellets, and 15 boxes for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated and directions for giving the medicines, diet, &c, necessary for a cure Cases, also, containing four or six of the small boxes are put up, which may be supplied with any of the different kinds at the option of the purchaser

The advantages of Specific Homœopathic Medicines—In prescribing other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa, or fever, and much care, study, and discrimination is required to select the proper one But here you have a Specific Remedy for each particular disease, and hence are able to use them with benefit and precision without that labor and study which the business man is so ill able to bestow, and without that research and examination which, to the mother, nurse or invalid, is so perplexing, tanntying, and unsatisfactory The advantages are so obvious as to commend them to all

P. L. Association, Notice.
THE bills for rafting up to June 1st are issued, and by an article of the bylaws a discount of six per cent. will be made on all amounts paid in cash at the Treasurer's office before the twentieth day of this month, and of three per cent on all amounts paid after that and before the 10th day of next month.

As the logs will soon be out of the booms, and the security for boomage is therefore precarious, the Directors have instructed the Treasurer to obtain payment or security immediately, and when necessary to require security before logs are delivered. By the by laws all logs on which the boomage has not been paid are to be advertised for sale in September, so the man who neglects to pay and get his discount, will lose twenty five per cent. per annum.

CIRCUS!

Numbering 150 Men and Horses!

By far the Largest and most Perfect Establishment that will be exhibited in the Eastern States this season!

NEWLY equipped and greatly augmented for the year 1856 it is confidently believed, will be found to present a combination of novel and attractive features, which will more than sustain the high reputation which it has attained in former years. The management will endeavor to deserve success by giving the public a full equivalent for their money and performing even more than they promise thinking a well deserved popularity honestly gained by fair proceedings much more desirable in the end than any mere temporary advantage, which may be obtained by resort to clap trap and humbug In short having received the appellation of the

Model Circus of America!

They are resolved to maintain it by giving performances which it shall be impossible to equal

ARNOLD'S COMBINED

FOOT-STOVE, LANTERN, ...AND.... NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT-STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling It is heated by an oil alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, besides giving the light desired, and for cooking in small quantities. For making tea, &c, it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a fast iron heat in the same length of time

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves

D. BUGBEE & CO

THE GREATEST MEDICAL DISCOVERY Of the Age.

Dr KENNEDY of Roxbury has discovered in one of our common native weeds, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor) He has now in his possession over two hundred certificates of its virtue all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will clear the system of boils

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas

One to two bottles are warranted to cure all humor in the eyes

Two bottles are warranted to cure running of the ears and bloches among the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaldy eruption of the skin

Two to three bottles are warranted to cure the worst cases of ringworm

Two to three bottles are warranted to cure the most desperate case of rheumatism

Three to four bottles are warranted to cure salt rheum

Five to eight bottles will cure the worst cases of scrofula

A benefit is always experienced from the first bottle and a perfect cure is warranted when the quantity mentioned is taken

Rather I peddled over a thousand bottles of this in the vicinity of Boston I know the effect of it in every case So sure as water will extinguish fire so sure will this cure humor I never sold a bottle of it but that sold another after a trial it always speaks for itself There are two things about this herb that appear to me surprising it grows in our pastures in the most plentiful, and yet its virtues have never been known until I discovered it in 1846—second that it should cure all kinds of humor

In order to give some idea of the sudden rise and great popularity of the discovery I will state that in April 1854 I peddled it and sold about six bottles per day—in April 1854 I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years say that nothing in the annals of patent medicines was ever like it There is a universal praise of it from all quarters

In my own practice I always kept it strictly for humors—but since its introduction in general family medicine, great and wonderful virtues have been found in it that I never suspected

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles It is what a menagerie it will prove effectual in all cases of that awful malady—there are but few which have seen more of it than I have

I know of several cases of Dropsy all of them aged people cured by it For the various diseases of the Liver, Sick Headache Dyspepsia Ague and Fever and Ague, Pain in the Side Diseases of the Spine, and particularly in Diseases of the Kidneys, &c this discovery has done more good than any medicine ever known

No change of diet or exercise necessary—eat the best you can get, and enough of it

DIRECTIONS FOR USE—Adults one tablespoonful per day—Children over ten years do one spoonful Children from five to eight years do one teaspoonful As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day
